

# Mushroom Prediction

Wireframe

# 1. USER INTERFACE

1. User can fill the file path in enter directory path box

2. Then user click custom file predict

## Mushroom Prediction

C:\Users\vijit\Mashroom\Prediction\_File

Custom File Predict

### Results

"Prediction File created at !!!Prediction\_Output\_File/Predictions.csv and few of the predictions are"

Prediction File created at C:\Users\vijit\Mashroom\Prediction\_File

< >

About

3. After this user will see in result box a message that prediction output file created in given path

# USER CAN VIEW LOG HERE
